

FIRE VICTIM TRUST ALERT

WARNING: Notice of Scams Targeting Fire Victims

We have received reports about calls from scammers targeting Fire Victims. In one scam, the caller asked a Fire Victim “to discuss certain benefits relating to her PG&E Claim.” In another scam, the caller pretended to be a representative of an insurance company, told the Fire Victim that the insurance company issued an overpayment, and provided instructions to send money. These callers were not representatives of the Fire Victim Trust or the insurance company.

We are concerned that scammers will continue to target Fire Victims. Take note of this information to avoid scams:

1. If you are a Claimant represented by a lawyer and you receive a call from someone pretending to be a representative of the Fire Victim Trust, stop the communications immediately and contact your lawyer. Fire Victim Trust representatives will not call you if you are a Claimant represented by a lawyer and we have recorded that representation status in your claim file.
2. If you get any request from someone to send you money in connection with the Fire Victim Trust and you do not know and trust the person, stop the communications and do not send any money to anyone.
3. If you use the Fire Victim Trust Portal, do not share your login credentials with anyone else. Agents in the Fire Victim Trust Call Center will never ask you for your Portal login information. Do not log into your Portal where others can see your screen.

Report any concerns to us by calling 1-888-664-1152 or email at info@firevictimtrust.com.
