

January 15, 2025

As the tragic fires continue to burn in Los Angeles County, our thoughts and sympathies go to every fire victim and to first responders, fire fighters and law enforcement risking their lives to save others. We also commend the nonprofits on the ground helping so many and every military and civilian agency prioritizing keeping people and property safe.

The Fire Victim Trust was created to help the victims of 23 fires in Northern California from 2015 to 2018. We have seen Northern California's resilience and determination to regroup and rebuild, and we can see the signs of it again, this time in Southern California. We stand in unity with the residents in the Los Angeles area who have lost everything including homes, property and businesses.

Sincerely,

A handwritten signature in black ink that reads "Cathy Gianni". The signature is written in a cursive, flowing style.
